

MEET SOMERVILLE, MA

59% of Somerville's roadway miles are low-stress, local streets - perfect for all ages and all abilities

Neighborways Goals

- Create a connected network of low-stress streets for people walking and bicycling
- Provide low-stress alternatives parallel to arterial streets
- Connect key locations like schools, parks, playgrounds, and business districts
- Build stronger relationships

Connecting Somerville with Neighborways

Neighbors take to the streets to install components of the "network neighborway", which include painted bump-outs to slow vehicle turning speeds and playful stencils to remind motorists that people may be walking or riding in the street.

Mural design and painting is a collaboration between neighbors, elected officials, and city staff. The end result is a neighborhood block party on paint day, and a sparkling new landmark that activates the street and calms traffic.
