

Managing Shared Active Transportation

An Active Panel for Active Transportation

Designing Cities 2018

Los Angeles

October 3, 2018

Meet our Panelists

Liza Farr - St. Louis

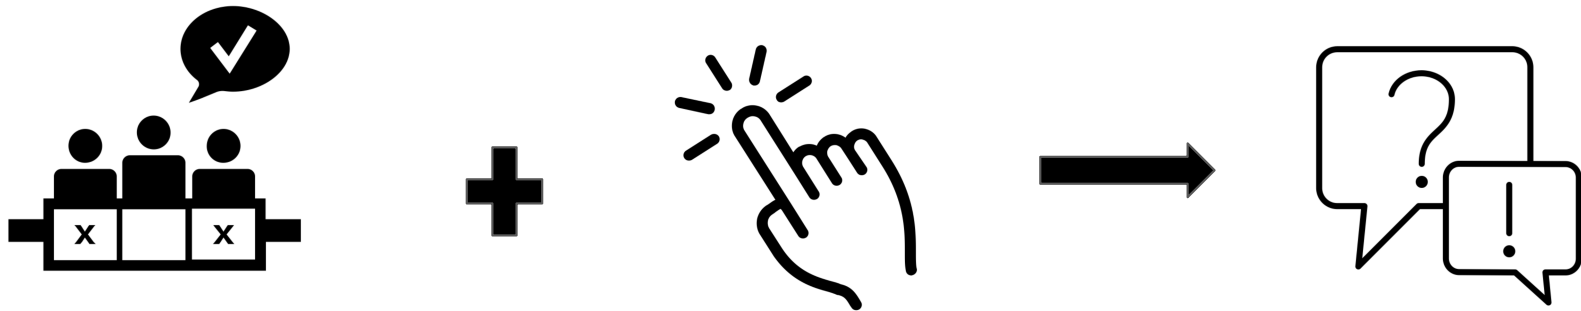

Jamie Parks - San Francisco

Stephanie Brodie - Washington DC

Jose Elias - Los Angeles

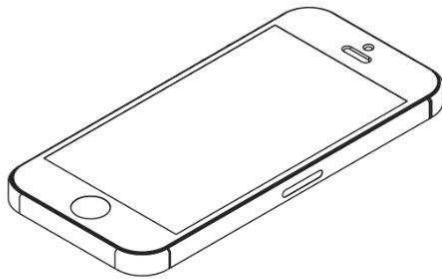

Jason Jon Michael - Austin

How this works...

- Panel and Interactive questions
- 1-2 audience questions between each round
- Full Q+A

It's Interactive!

What is Shared Active Transportation?

Companies rent small, shared-use-specific, vehicles to the public from multiple locations within the right-of-way. To date, these small vehicles include: bikes, e-bikes, scooters, and e-scooters, but other vehicles may be under development. Typically, Shared Active Transportation small vehicles are stored in the public right-of-way.

CODE: 73 14 90

**What's your city's number one goal
for shared active transportation?**

#NACTO18

CODE: 73 14 90

**What is/ was your biggest
apprehension about permitting
shared active systems?**

#NACTO18

CODE: 73 14 90

What do you see as the biggest potential challenge or benefit this new model of transportation will pose in the future?

Shared Stuff on the Street

#NACTO18

How have you responded to the tension between rapid innovation and “public-first” government processes?

Shared Stuff on the Street

#NACTO18

**What has been your biggest
enforcement/compliance challenge?**

Shared Stuff on the Street

#NACTO18

What's your permitting approach to ensuring equitable access to transportation services?

Shared Stuff on the Street

#NACTO18

What is your biggest data challenge?

Shared Stuff on the Street

#NACTO18

What is the most useful performance measure (R/B/D, utilization rate)?

Shared Stuff on the Street

#NACTO18

How has your experience with dockless companies informed or shaped your city's broader management of the public ROW or public/private partnerships?

Shared Stuff on the Street

#NACTO18

What has been the public's response and involvement in the development of your shared active transportation program?

Shared Stuff on the Street

#NACTO18

Has your shared active mobility program helped you accomplish public goals, or has it impeded progress in accomplishing public goals?

Shared Stuff on the Street

#NACTO18

**What has been the biggest change
in your department since dockless
arrived in town?**

THANK YOU
