Program  
Development)*

Strategies for  
Maintaining  
and Renewing  
Innovative  
Street Projects

A photograph of a modern building with a curved, metallic facade made of dark, rectangular panels. The building has several irregularly shaped windows. The sky is overcast and grey. The building is situated on a grassy area with some gravel paths.

**Question:**  
What can cities do to ensure  
that innovative street projects  
are maintained and improved  
over time?

**Strategies for  
Maintaining  
and Renewing  
Innovative  
Street Projects**

# How 3 cities do it:

## 1. Chicago

Luann Hamilton  
Deputy Commissioner  
Chicago Department of Transportation

## 2. Seattle

Darby Watson  
Division Director, Project Development  
Seattle Department of Transportation

## 3. Toronto

Elyse Parker  
Director of Policy and Innovation, Transportation  
Services  
City of Toronto
